PRICES OF METALS ON UPWARD TREND

DEMAND INCREASING AMONG MUNITION MANUFACTURERS FOR VARIOUS METALS

All the metals entering into the manufacture of ammunition—copper, lead and spelter—are in demand, and prices show increasing strength. The recent advance in copper from 18 to 18 1/2 cents was a confirmation of the predictions of men in touch with the trade that good buying was sure to take place and that the price would go higher. There is a strong demand for lead for export, and the part it plays in the manufacture of shrapnel, machine gun and rifle ammunition makes it a necessity to the large number of American concerns which are turning out these products. The price of the American Smelting & Refining company remains unchanged at 4 1/2 cents, but in view of the strong demand it is believed that an advance is a question of but a day or two. Despite the increasing output of spelter (zinc), spot supplies are hard to obtain. The current demand is apparently taking care of the production of the refiners, and the expected accumulation of stocks has not taken place. Spot spelter is quoted at 14 1/2 cents, St. Louis, and future deliveries down to 12 cents. Officials of the leading copper concerns do not conceal their gratification at the turn the situation has taken. Without exception leading producers have insisted over the recent dull months that the market was bound to "come back" on account of the enormous consumption of the metal in war.

LIGHTS AND SHADOWS OF THE WAR

(Continued from Page 3)

could such an enormous sum be raised? National honor prevents us from fighting at the expense of others, yet assuming that Japan resorts to loans for the purpose, how could she raise or redeem such loans? The general feeling in the various walks of Japanese life is that it would be unwise for Japan to risk its prestige in two victorious wars, by a questionable military adventure in Europe.

MINES OF RAWHIDE SHOWING UP WELL

E. W. King, president of the Nevada New Mines company of Rawhide and owner of several other valuable properties near Rawhide, is in Reno visiting friends and transacting business. Mr. King states that the mines of Rawhide are producing regularly and with an expected advance in the price of silver may resume operations. A splendid vein of ore which appears to be permanent was opened in the shaft of the New Mines company last week. The ore carries heavy values in gold and some silver. Reno Journal.

HORSE BROUGHT \$150

A fine, big black horse, obtained in judgment by a prisoner at the state penitentiary against Walter Reis, a former guard, was put up at auction this morning by Constable Jack Gray and sold to Henry Daugherty of the Carson water works. For a while the bidding for the animal was spirited, but it quit when Daugherty offered \$150.—Appeal.

REPORTS THEATER SAFE

A committee of investigation, including Mayor Frank J. Byington, Councilmen Peter Steffes and Roy Burroughs, City Engineer Chism, Fire Chief R. B. Hawcroft, Contractor Andy Patterson and George Holesworth, who erected the building, yesterday examined the Majestic theater building at Reno and pronounced it absolutely safe and uninjured by the earthquake shock that visited that city several days ago.

WILLIE BOB WILL GO BACK TO HIS TRIBE

INDIAN BOY BROUGHT BACK FROM DEATH'S SHADOWS AND WILL RETURN TO TRIBE

The little redskin, Willie Bob, will get well. So says Dr. Richards, the county physician, who is looking after him at the county hospital. Willie was taken against his will to the Stewart institute, the Indian training school near Carson City. There he toiled in the fields and in the workshops, spurred on by the endeavor of the white taskmasters to make of him a Caucasian, when he was nothing but an Indian, a broadshouldered, alert, keen eyed little savage, with nothing in his mind but love of his work and his people, with thoughts for but the open air and the far spread plains and the mountains that bounded them. Willie walked all the way from Carson City to Tonopah and subsisted on sagebrush. He was taken to the hospital when he arrived here in the last stage of non-nutrition and now he is well again, but he doesn't want to go back, even though Chief Evans has the ticket to give to the conductor and even though an attendant at the school has arranged to meet him at Churchill. Willie is the nephew of a big chief, none other than old Kawich himself, and he wants to go back to his father and his mother, his brothers and his sisters, who are true aborigines and not tainted by the vices of the whites. "I think I will send Willie back to his mother," said Dr. Richards this morning.

TRAVELERS' CHECKS ARE RETURNED INTACT

The \$200 worth of travelers' checks, stolen from the cabin of T. R. Goldsborough, were recovered by the police last night through the advertisement printed in the Bonanza. They were turned over to Policeman Grant by Randall Swanson, who said he found them down by the West End dump.

AMUSEMENTS

BUTLER THEATER

Gaby Deslys, who has been in the public eye for some time through her sensational triumphs on the European and New York stages, makes her first and exclusive appearance on the screen at the Butler tonight in a novel comedy-drama of the theater, "Her Triumph," a four-part novelty film produced in Paris by the Famous Players Film company and released on the Paramount program. Through the medium of this unusual photoplay the celebrated Gaby's famed beauty and charm are transferred to the screen and can be appreciated to even better advantage than from across the footlights, because of the more realistic powers of the film, and the widened scope it gives her art. "Her Triumph" is an original conception that presents the illustrious Gaby in a varied environment, and in circumstances that alternate between comedy and serious drama. In "Her Triumph" Mlle. Deslys has many opportunities for presenting with her dancing partner the dance through which she sprang to instantaneous and world-wide fame. The feat is bound to attract attention for a long time. Enter Weekly of all the latest happenings and Paris fashions in natural colors. Remember to see our friend Charlie Chaplin will be here, also, "The Face in the Moonlight."—Adv.
